

- Importing Keras libraries

```
import keras
```

- Importing ImageDataGenerator from Keras

```
from keras.preprocessing.image import ImageDataGenerator
```

- Defining the Parameters

```
train_datagen=ImageDataGenerator(rescale=1./255,shear_range=0.2,  
rotation_range=180,zoom_range=0.2,horizontal_flip=True)  
test_datagen=ImageDataGenerator(rescale=1./255),
```
